DESIGN AND ANALYSIS OF ALGORITHMS

Name: Haresh Kumar N L

Reg No: 192425009

Experiment 5: Matrix Multiplication

Code:

```
A = [[1, 2],
      [3, 4]]
B = [[5, 6],
      [7, 8]]
result = [[0, 0],
           [0, 0]]
for i in range(len(A)):
    for j in range(len(B[0])):
        for k in range(len(B)):
            result[i][j] += A[i][k] * B[k][j]
print("Resultant Matrix:")
for row in result:
    print(row)
```

Output:

```
===== RESTART: C
Resultant Matrix:
[19, 22]
[43, 50]
```
